Commissioners:

As discussed at the financial workshop in April, the May 21 Board meeting agenda includes official action items related to proposed budget and commitment appropriations for fiscal year 2016, a one-year line of credit for the Gas Division, and proposed public fire protection rates effective for fiscal years 2016 and 2017, respectively.

An overview of each official action item is provided below.

Resolution 1329

Resolution 1329 adopts budget appropriations for fiscal year 2016 totaling \$888.8 million, including \$583.3 million for the Electric Division, \$130 million for the Gas Division, \$67 million for the Water Division, and \$108.4 million for the Wastewater Division.

The proposed budget request provides \$479.9 million for wholesale energy purchases, \$129.6 million for operations and maintenance costs, \$179 million for capital expenditures, \$67.9 million for debt service payments, and \$32.4 million for taxes and tax equivalent payments. Mr. Walker, KUB's Chief Financial Officer, has prepared a letter certifying the availability of funds to fund the proposed budget.

A summary of the proposed budget request for fiscal year 2016 is attached for your information.

Resolution 1330

Resolution 1330 provides commitment appropriations for fiscal year 2016. The proposed request authorizes KUB to execute contracts and incur obligations on or before June 30, 2016 that commit KUB to expenditures subsequent to June 30, 2016. The commitments total \$54.7 million. The Electric Division's commitment appropriations will be \$14 million; the Gas Division's commitment appropriations will be \$7.2 million; the Water Division's commitments will be \$11 million; and the Wastewater Division's commitment appropriations will be \$22.5 million. Mr. Walker has also prepared a letter certifying the availability of funds for the commitment appropriations.

Resolution 1331

Resolution 1331 authorizes the issuance of a one-year line of credit for the Gas Division, not to exceed \$10 million. As you know, the Gas Division is subject to seasonal cash flow variation. While the majority of gas sales come from winter heating, natural gas purchases and other expenses are incurred by the division throughout the year. The line of credit is an effective tool for managing potential cash flow constraints associated with the seasonality of natural gas sales. The proposed line of credit would have a one-year maturity, with any balance drawn repaid prior to the end of the fiscal year.

Resolution 1332

As you know, KUB has designed its water system facilities, including treatment plants, pumps, reservoirs, and water mains, with additional capacity necessary to meet public fire protection service demands. In order to recover its costs associated with this additional system capacity, KUB bills the City of Knoxville an annual public fire protection service charge based on a public fire protection rate adopted by the Board.

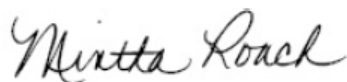

Since 2002 the Board, at the request of the City, has adopted the public fire protection rate for periods of three consecutive years, with a true-up at the end of each three-year period to ensure KUB appropriately recovers its costs. The last increase in the public fire protection rate was effective July 1, 2012.

KUB and the City have mutually agreed to end the practice of setting the public fire protection rate for periods of three consecutive years with the understanding the rate will be subject to future changes as determined by the Board, in its sole discretion, consistent with the long-term funding plan of the water system.

Resolution 1332 provides for an increase in the public fire protection rate effective July 1, 2015 and July 1, 2016, respectively, to ensure KUB continues to appropriately recover its costs of providing water system capacity to meet public fire service demands.

A draft of each resolution is enclosed for your review. I recommend adoption of Resolution 1332 on the first of two readings, and the adoption of Resolutions 1329, 1330, and 1331 on first and final readings.

Respectfully submitted,

Knoxville Utilities Board FY 2016 Budget Request

KUB's proposed budget of \$888.8 million for fiscal year 2016 supports our ongoing efforts to fulfill KUB's vision of providing utility services that are safe, reliable, and affordable for both current and future generations of KUB customers.

KUB's proposed budget represents a slight increase of \$1.6 million or 0.2 percent over the current fiscal year forecast, reflecting expenditures for the deployment of smart meters and debt service associated with new bond issues. Fiscal year 2016 represents the first year of a planned four-year system-wide deployment of smart meters. The new bonds will help fund the upcoming fiscal year's capital budget.

KUB's new ten-year financial plan incorporates several new multi-year strategic initiatives, including smart grid deployment, water system redundancy, workforce planning, environmental sustainability, and improving the downtown electric network, all of which are partially reflected in the proposed budget.

The proposed budget includes \$479.9 million for wholesale energy purchases, \$179 million for capital investment in KUB's four utility systems, \$129.6 million for operations and maintenance (O&M) costs, \$67.9 million for principal and interest payments on outstanding bonds, and \$32.4 million for tax equivalent payments and FICA tax expense.

The proposed \$889 million budget will be funded by \$784 million in systems revenue, \$85 million in bond proceeds, and \$20 million in general fund cash. Rate increases previously approved by the Board will be reflected on customers' bills in August 2015 (electric and water) and November 2015 (natural gas and wastewater). The \$85 million in bond proceeds represents electric, water and wastewater bonds sold in April 2015.

Energy Costs

The largest component in KUB's fiscal year 2016 budget is the cost of wholesale energy purchases, consisting of electric power purchases from TVA and natural gas purchases from multiple gas suppliers. At \$479.9 million, wholesale energy represents 54 percent of KUB's fiscal year 2016 budget.

The proposed budget for purchased power is \$419.3 million, providing for the purchase of 5.7 billion kilowatt hours (kWh) from TVA for resale to KUB's electric customers. The proposed budget for purchased gas cost is \$60.6 million, representing the purchase of approximately 9.4 million dekatherms from suppliers for resale to KUB's gas system customers during fiscal year 2016.

The proposed budget for wholesale energy costs is \$11.9 million lower than the current year forecast, reflecting the colder than normal winter in fiscal year 2015.

O&M

KUB's proposed budget for O&M expenditures for fiscal year 2016 is \$129.6 million, representing 14.6 percent of the total budget request.

The \$129.6 million O&M budget consists of the following:

- \$60.3 million for labor-related expenditures, including \$43.2 million for O&M payroll, \$9.4 million for active employee medical expense, \$6.1 million for our annual contribution to the Pension Trust and for other post-employment benefits, and \$0.9 million for a contribution to the OPEB Trust to help fund post-employment health care benefits.
- \$33.3 million for materials and other costs, including \$7.8 million for utility expense, \$3 million for software licenses, \$2.6 million for chemicals for treating water and wastewater, and \$5.2 million for supplies and tools.
- \$35.9 million for various programs carried out by contractors on behalf of KUB, including \$7.1 million for vegetation management, \$3.4 million for facilities management and maintenance, and \$3.5 million for contract meter reading. Contract meter reading will be phased out over the following four years as KUB transitions to remotely read smart meters.

The \$129.6 million O&M budget represents an increase of approximately \$0.5 million over the current year forecast.

Capital

KUB's proposed capital budget for fiscal year 2016 is \$179 million, representing 20.1 percent of the total budget request. \$159.1 million or 89 percent of the proposed capital budget is directly related to improving, replacing, and expanding our utility system infrastructure.

The \$179 million budget includes the following major projects:

- \$20.8 million for the rehabilitation and replacement of 25 miles of wastewater main.
- \$10.3 million for the deployment of approximately 47,000 smart meters.
- \$4.7 million for water system improvements and \$4.1 million for wastewater system improvements.
- \$1.5 million for Century II downtown electric network projects, \$1.5 million for Lonsdale substation upgrades, and \$1.4 million for Arlington substation upgrades.
- \$13.2 million for completion of the South Loop gas line to the University of Tennessee.
- \$7.3 million for steel and cast iron gas main replacements, representing a total of 11.5 miles.
- \$6.7 million for water system cast iron main replacement, \$4.8 million for galvanized main replacement, and \$1 million for other water system replacement and relocation projects, representing a total of 17 miles.

- \$2 million for new multi-year environmental/sustainability initiatives, including \$1.2 million for heating and cooling system upgrades at the Hoskins Operations Center, and \$0.8 million for a new CNG fueling station. The CNG station, which will serve KUB's fleet and also be available to the general public, has an estimated completion date of December 2016.

The proposed \$179 million capital budget will keep each utility system's Century II program on track in fiscal year 2016.

Debt Service

The proposed budget for KUB's debt service payments for fiscal year 2016 is \$67.9 million, representing 7.6 percent of the total budget request.

The debt service budget includes \$29.3 million in principal payments and \$38.6 million in interest payments for bonds outstanding as of June 30, 2015.

At \$67.9 million, proposed debt service expenditures for fiscal year 2016 represent an increase of \$2.9 million over the current fiscal year forecast, reflecting debt service payments on the \$85 million in new bonds sold in April 2015.

Taxes and Tax Equivalents

The fiscal year 2016 budget also includes \$32.4 million for in lieu of tax payments and FICA labor-related taxes, representing 3.7 percent of the proposed total budget.

KUB is required under state law and the City Charter to make in lieu of tax payments (tax equivalents) to taxing jurisdictions in which its utility systems are located. Tax equivalents account for \$27.9 million of the proposed budget, including \$17.7 million in payments to the City of Knoxville, \$9.4 million in payments to Knox County, and \$0.8 million in payments to other taxing jurisdictions in which KUB's utility systems are located.

In the proposed budget, tax equivalent payments to the City of Knoxville are \$1.1 million higher than the current fiscal year, and payments to Knox County are up \$0.7 million. The higher level of payments reflects capital investment additions for each utility system.

Utility Division Budgets

The information provided above presents the proposed fiscal year 2016 budget on a combined basis. The Board will be requested to adopt budget appropriations for each respective division, including \$583.3 million for the Electric Division, \$130 million for the Gas Division, \$67 million for the Water Division and \$108.4 million for the Wastewater Division.

The following provides an overview of each division's proposed budget.

Electric Division

The proposed fiscal year 2016 budget for the Electric Division is \$583.3 million. The budget includes \$419.3 million for wholesale power purchases, \$55.6 million for O&M, \$73.7 million for capital, \$18.3 million for debt service, and \$16.5 million for taxes and tax equivalents.

The Electric Division's \$55.6 million O&M budget includes \$26.8 million for labor-related expenses, \$19.4 million for programs carried out by contractors (including \$7.1 million for vegetation management), and \$9.4 million for materials and other costs.

The \$73.7 million capital program includes \$49.5 million for system improvements and growth of the electric system, including \$8.5 million for electric transmission line (69 kV) improvements, \$2.9 million for Lonsdale and Arlington Substation improvements and \$6.5 million for the replacement of 2,500 poles. The electric system is expected to add 1,100 new customers in fiscal year 2016. KUB will spend \$7.2 million to relocate electric system utilities to accommodate highway construction projects. The remaining expenditures will provide for \$10.7 million in information technology projects and \$6.3 million in facilities and equipment.

The proposed budget for the Electric Division will be funded by \$542.6 million in electric system revenue, \$35 million in bond proceeds (from bonds sold in April 2015), and \$5.7 million in general fund cash. Proposed budget funding includes \$5.2 million in revenue from a previously approved electric rate increase for fiscal year 2016, which will raise each residential electric customer's monthly bill \$1. The \$1 increase will be reflected on electric customers' bills beginning August 2015.

Gas Division

The Gas Division's proposed fiscal year 2016 budget is \$130 million. The proposed budget includes \$60.6 million for wholesale natural gas purchases, \$19 million for O&M, \$33.2 million for capital, \$9.6 million for debt service payments, and \$7.6 million for taxes and tax equivalents.

The Gas Division's \$19 million O&M budget includes \$9.7 million for labor-related expenses, \$5.2 million for maintenance and other programs carried out by contractors, and \$4.1 million for materials and other costs.

The \$33.2 million capital program includes \$26.2 million for improvements, replacements, and expansions to the natural gas distribution system. The gas system is expected to add 750 new customers in fiscal year 2016. Planned improvements include \$7.3 million for 11.5 miles of main replacements including completion of the cast iron main replacement program and \$13.2 million for completion of the South Loop gas line to the University of Tennessee. The remaining budget will provide \$2.4 million for the relocation of gas utilities to accommodate state and federal highway projects, \$3.1 million for information technology projects and \$1.5 million for facilities and equipment.

The Gas Division's proposed budget will be funded by \$115.9 million in gas system revenue and \$14.1 million in general fund cash. Proposed budget funding anticipates \$1.8 million in revenue from a previously approved rate increase, which will raise each residential gas customer's monthly bill \$1. The increase will be seen on gas customers' bills beginning November 2015. No gas system bond issues are anticipated in fiscal year 2016.

Water Division

The proposed fiscal year 2016 budget for the Water Division is \$67 million. This budget includes \$23.3 million for O&M, \$30.3 million for capital expenditures, \$9.6 million for debt service, and \$3.8 million for taxes and tax equivalents.

The Water Division's \$23.3 million O&M budget includes \$10.8 million for labor-related expenses, \$3.6 million for programs carried out by contractors, and \$8.9 million for materials and other costs.

The proposed \$30.3 million capital budget provides \$18.4 million for water system improvements, replacements, and expansions, including 17 miles of water main replacements. The water system is expected to add 50 new customers in fiscal year 2016. The water capital budget also includes \$4.8 million for plant improvements at the Mark B. Whitaker Water Plant including \$2.7 million for disinfection process improvements. The capital budget provides \$3.9 million for the division's allocated share of information technology projects, and \$1.3 million for facilities and equipment. The remaining budget will provide \$1.9 million to relocate water system utilities for state and federal highway projects.

The Water Division proposed budget will be funded by \$47 million in water system revenue and \$20 million in bond proceeds (from bonds sold in April 2015). Water system revenue includes \$2.1 million in revenue from a previously approved rate increase, which will raise each residential water customer's monthly bill \$1. The increase will be seen on water customers' bills beginning August 2015.

Wastewater Division

The Wastewater Division's proposed budget for fiscal year 2016 is \$108.4 million. The budget includes \$31.7 million for O&M, \$41.8 million for capital, \$30.4 million for debt service, and \$4.5 million for taxes and tax equivalents.

The Wastewater Division's \$31.7 million O&M budget includes \$13.1 million for labor-related expenses, \$7.7 million for programs carried out by contractors, and \$10.9 million for materials and other costs.

The proposed \$41.8 million capital budget includes \$27.2 million for collection system replacement including 25 miles of sewer main replacements and rehabilitation projects. The capital budget also includes \$10.4 million for various treatment plant improvements. The remainder of the proposed capital budget provides \$0.7 million for wastewater pipe

relocations, \$2.1 million for the division's share of information technology projects, and \$1.4 million for general facilities and equipment. The wastewater system is expected to add 150 new customers in fiscal year 2016.

The Wastewater Division budget will be funded by \$78.4 million in wastewater system revenue and \$30 million from bond proceeds (from bonds sold in April 2015).

Wastewater revenue includes \$4.7 million in revenue from a previously approved rate increase for fiscal year 2016, which will raise each residential customer's monthly bill \$3. The \$3 increase will be seen on wastewater customers' bills beginning November 2015.

Section 8. Issuance of Notes. The Chief Financial Officer is hereby authorized to sell the Notes by negotiated sale to one or more banks, and in connection with such negotiated sale, the Chief Financial Officer is authorized, but not required, to request proposals from prospective purchasers of the Notes. The Notes may be issued in one or more series at one or more times with one or more banks, but shall mature not later than one (1) year from the dated date of the initial series of Notes. The Chief Financial Officer at his discretion may renew or remarket all or any of the Notes at any time following the initial delivery of the Notes but prior to one (1) year thereafter, pursuant to the terms hereof and upon such rates and terms as shall be acceptable to the Chief Financial Officer, so long as the final maturity date of the Notes so renewed or remarketed is not later than one (1) year after the date of delivery of the initial series

It is the reasonable expectation of the City and KUB that the proceeds of the Notes will not be used in a manner which will cause the Notes to be "arbitrage bonds" within the meaning of Section 148 of the Code, and to this end the said proceeds of the Notes and other related funds established for the purposes herein set out, shall be used and spent expeditiously for the purposes described herein. In the event Section 148(f) of the Code shall require the payment of any investment proceeds of the Notes to the United States government, KUB will make such payments as and when required by said Section 148(f) and will take such other actions as shall be necessary or permitted to prevent the interest on the Notes from becoming taxable. The Chair and Secretary of the Board, the President and Chief Executive Officer and Chief Financial Officer of KUB, or any of them, are authorized and directed to make such certifications in this regard in connection with the sale of the Notes as either or both shall deem appropriate, and such certifications shall constitute a representation and certification of KUB.

Section 11. Resolution a Contract. The provisions of this resolution shall constitute a contract between KUB and the registered owners of the Notes, and after the issuance of the Notes, no change, variation or alteration of any kind in the provisions of this resolution shall be made in any manner until such time as the Notes and interest due thereon shall have been paid in full.

Section 12. Separability. If any section, paragraph or provision of this resolution shall be held to be invalid or unenforceable for any reason, the invalidity or unenforceability of such section, paragraph or provision shall not affect any of the remaining provisions of this resolution.

RESOLUTION NO. 1332

A Resolution Replacing the Existing Rate Schedule of the Water Division for Public Fire Protection Service with New Rate Schedules to be Effective July 1, 2015 and July 1, 2016

Whereas, the Knoxville Utilities Board (“KUB”) has designed its water system facilities, including treatment plants, pumps, reservoirs, and water mains, with the additional capacity necessary to meet public fire protection service demands, while maintaining its ability to meet normal customer requirements and system growth; and

Whereas, KUB incurs a cost for providing facilities to meet public fire service demands, including both capital investment and the cost of maintaining those facilities; and

Whereas, the KUB Board of Commissioners (the “Board”) has previously adopted a rate for public fire protection service (the “Public Fire Protection Rate”), expressed in the terms of a rate for each KUB owned public fire hydrant located within the jurisdictional boundaries of a governmental entity providing public fire protection service; and

Whereas, since 2002 KUB and the City of Knoxville (the “City”) have been parties to a Memorandum of Understanding (the “Memorandum”), which, at the request of the City, adopted the Public Fire Protection Rate for periods of three consecutive years, and included a true-up mechanism to ensure KUB appropriately recovers its costs associated with providing facilities to meet public fire service demands; and

Whereas, pursuant to Resolution 1267, the Board last increased the Public Fire Protection Rate effective July 1, 2012, and the three-year period for charging the City the current Public Fire Protection Rate will end June 30, 2015 upon the expiration of the Memorandum; and

Whereas, KUB and the City have mutually agreed to end the practice of adopting the Public Fire Protection Rate for three-year periods with the mutual understanding the Public Fire Protection Rate will be subject to future changes as determined by the Board in its sole discretion consistent with the long-term funding plan of the water system; and

Whereas, KUB and the City have mutually agreed that any true-up amount resulting from public fire protection charges billed the City for the three-year period ending June 30, 2015, will be amortized over a three-year period commencing with public fire protection charges for the fiscal year beginning July 1, 2015; and

Whereas, the Board has determined that an increase in the Public Fire Protection Rate is necessary to ensure that KUB continues to appropriately recover its cost of providing facilities to meet public fire service demands; and

Whereas, the Board desires to increase the Public Fire Protection Rate effective July 1, 2015, and July 1, 2016, respectively, which will place the Public Fire Protection Rate on schedule with previously approved increases for all other rate schedules of the Water Division; and

Whereas, in accordance with Section 1107(F) of the Charter of the City of Knoxville ("Charter"), the Board is required to charge sufficient rates for water service to pay all obligations of the Water Division; and

Whereas, in accordance with Section 1107(L) of the Charter, KUB has provided the required public notice of not less than five (5) days prior to a meeting of the Board when a rate change is to be considered.

Now, Therefore, Be it Hereby Resolved by the Board of Commissioners of the Knoxville Utilities Board:

Section 1. That the Water Division Rate Schedule entitled "Schedule D – Public Fire Protection Service" as set forth in Section 3 of Resolution 1060, as heretofore amended, is hereby deleted in its entirety and replaced with the rate schedule set forth in Exhibit A to this Resolution, to be effective July 1, 2015.

Section 2. That the Water Division Rate Schedule entitled "Schedule D – Public Fire Protection Service" as set forth in Section 3 of Resolution 1060, as heretofore amended, is hereby deleted in its entirety and replaced with the rate schedule set forth in Exhibit B to this Resolution, to be effective July 1, 2016.

Commissioners:

The April 16 Board meeting agenda includes official action items related to additional budget and commitment appropriations for fiscal year 2015.

An overview of each official action item is provided below.

Resolution 1327

Resolution 1327 provides for additional budget appropriations for fiscal year 2015. Last May the Board adopted budget appropriations totaling \$867.6 million. At the March 26 meeting of the Board's Audit and Finance Committee, staff discussed the need for additional budget appropriations for the Electric, Gas, and Water Divisions to cover higher than anticipated expenditures for the current fiscal year.

Based on the latest forecast of cash expenditures, the Electric Division is expected to exceed its original budget appropriation by \$9.1 million due to a higher level of electric power purchased from TVA to meet customer demand last winter. The Gas Division is forecasted to exceed its budget appropriation by \$11.2 million due to higher than estimated expenses for construction of the South Loop gas pipeline project as well as higher than expected customer demand due to the colder than normal winter. The Water Division will exceed its original budget by \$0.1 million, reflecting costs associated with the repair of main breaks resulting from weather conditions in February.

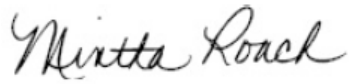

Resolution 1327 provides for an additional \$15 million in budget appropriations for the Electric Division, an additional \$15 million for the Gas Division, and an additional \$0.5 million for the Water Division. A letter from Mr. Walker, KUB's Chief Financial Officer, has been prepared certifying the availability of these funds.

Resolution 1328

Commitment appropriations cover any contracts executed or other obligations incurred over the course of a fiscal year that commit KUB to cash expenditures beyond the fiscal year. Last May the Board adopted commitment appropriations totaling \$63.8 million for fiscal year 2015. Staff has reviewed commitments made and to be made for the current fiscal year, and is recommending an increase in commitment appropriations for the Electric and Water Divisions. Resolution 1328 provides for an additional \$2.2 million in commitment appropriations for the Electric Division and an additional \$450,000 for the Water Division. A letter from Mr. Walker has been prepared certifying the availability of funds for the additional appropriations.

I recommend adoption of Resolution 1327 and 1328 on first and final readings.

Respectfully submitted,
