

MAJOR PROJECT UPDATE

This project is being completed as part of KUB's Century II infrastructure improvement and replacement programs. For more information about this project, please view the project information sheet.

PROJECT TITLE: Old Kingston Pike Wastewater Rehabilitation Project

UPDATE ISSUE DATE: January 24, 2020

Please see corresponding maps for work zones referenced below.

UPDATE:

KUB's contractor for this project, Hurst Excavating, is scheduled to begin mobilization and pre-construction activities in the area the week of January 27. As a reminder, due to the location of some wastewater pipes and manholes under the roadway, temporary lane and/or road closures may be needed in the immediate area where crews are working for the duration of this project. This project is scheduled for completion by late April 2020. Final overall paving and restoration will take place at the conclusion of the wastewater project.

NOTE: The next blog update will be posted on Monday, February 3.
