KUB Water Work to Impact Small Section of Neyland Greenway

On Saturday, October 1, from 7 a.m. - noon, Knoxville Utilities Board will perform work on the water distribution system near Thompson-Boling Arena on the University of Tennessee campus and Neyland Drive. This work will occur out of the roadway and is not expected to impact traffic; however, drivers should still use caution when traveling in this area. This work will impact a short section of the Neyland Greenway, which will be narrowed in the work area but will remain open. Greenway users are advised to use caution in this area of the Neyland Greenway.

KUB thanks the City of Knoxville's Parks and Recreation Department and the University of Tennessee for their assistance with this project, and our customers for their cooperation. Customers with questions or concerns can call 558-2330 to leave a message that will be followed-up with a call from a KUB representative no later than the next business day.

KUB is a municipal utility serving Knox and parts of seven adjacent counties and provides electric, gas, water, and wastewater services to more than 445,000 customers.
