

TRAFFIC ADVISORY

November 4, 2016

To: Local Media Representatives

From: KUB Communications

Re: Traffic Advisory – Lane/Road Closure for Utility Work [All closures and work are weather permitting]

(Old City) N. Central Street & Depot Avenue Road Closure [November 8] – KUB and its contractor will close the below sections of roadway from 7 a.m. – 5 p.m. on Tuesday, November 8, as utility work for the N. Central Avenue Streetscapes Project continues:

- N. Central Street between Magnolia Avenue and Jackson Avenue
- W. Depot Avenue between Ogden Street and Morgan Street.

Alternate routes include Magnolia Avenue, Ogden Street, W. Depot Avenue, and N. Gay Street. Following this work, the single lane closure of southbound N. Central Street will be re-implemented. Please see the attached N. Central Street Streetscapes Project map for more detailed traffic information. Follow-up advisories will be issued as necessary.

(Old City) West Jackson Avenue Road Closure [November 4 - January 2017] – KUB crews will implement a full road closure of a short section of West Jackson Avenue between North Broadway and South Gay Street from 6 a.m., Monday, November 7, through January 2017, work is performed on the Jackson Avenue Streetscapes Project. Access to area parking will be maintained from both N. Broadway and S. Gay Street; however, through traffic will be prohibited. On Monday, November 7, and Tuesday, November 8, there will be alternating ingress/egress to the Jackson Avenue Lot with flaggers present. Two-way ingress/egress to the lot will resume after November 8. Sidewalk pedestrian access will also be maintained during the project. This closure will be around-the-clock through the project timeframe, and will remain in place overnight and on weekends. Please see the attached W. Jackson Avenue Streetscapes Project map for more detailed traffic information. Follow-up advisories will be issued as necessary.

Some listed closures may extend beyond the scheduled times depending on the conditions encountered during excavation and construction. Appropriate traffic control measures will be in place at each location to assist motorists traveling in these areas. Due to the ongoing presence of workers and equipment, motorists are advised to use caution and expect temporary delays in these areas. More information on this and other KUB construction projects can be found at www.kub.org.

Tennessee's **Move Over Law** requires motorists approaching a utility vehicle with flashing lights to move over if safe to do so, creating an empty lane buffer. When changing lanes is not possible, motorists must reduce speed.

Knoxville Utilities Board

KUB is a municipal utility serving Knox and parts of seven adjacent counties and provides electric, natural gas, water, and wastewater services to more than 445,000 customers.
